

THE CHARLEROI MAIL

VOLUME XXI—No. 301

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, FRIDAY, MAY 27, 1921.

TWO CENTS

CHARLEROI HIGH GRADUATES LARGEST CLASS IN ITS HISTORY

Exercises were Enjoyed by an Audience which taxed Auditorium capacity

DR. MCGOWAN WAS SPEAKER

The closing chapter in the high school life of the Class of '21 was enacted in the high school auditorium, last evening, when a capacity audience assembled to witness the graduation of the class. The pupils, thirty-nine academics and fifteen commercials, were seated on a raised platform on the stage, which was neatly decorated with a profusion of ferns and palms, garbed in the customary grey graduating gown and mortar board cap. They presented an attractive appearance. Seated on the stage, in addition to the class, were Dr. F. C. Stahlman, president of the School Board; Superintendent T. L. Pollock; Prof. C. C. Lively, principal of the high school; Rev. J. R. Burson, Rev. D. Gomer Griffiths, and the speaker of the evening, Rev. Robert MacGowan, D. D., pastor of the Bellefield Presbyterian Church, of Pittsburgh, Pa. The exercises of the evening were impressive, and in keeping with the other events which have marked the graduation of this, unquestionably the most successful body of students that has ever left Charleroi high school. As evidence of this, it is but necessary to draw attention to the fact that one-third of their number distinguished themselves by winning honors. To accomplish this, it was necessary for each to secure a grade of ninety percent in both their studies and deportment. That so many of their number succeeded in gaining this most creditable showing is proof of the efficient work done and a decided compliment to the class in general. Both students and faculty are to be congratulated on the splendid results obtained.

Rev. Robert MacGowan delivered a most delightful address, speaking on the subject, "The Creed of Democracy." The reverend gentleman is a speaker of much eloquence and brilliancy—one of international reputation—and the privilege of listening to such an one was enjoyed by all. He told the class, at the outset, that he was with them in that he also was a student. Then, taking the constitution of the United States as a vehicle for illustrating the points he wished to make, he proceeded to explain his subject and its application to the true spirit of democracy. His talk was brimful of patriotism, and abounded with sterling advice to the young people to whom he was speaking. The address, in its entirety, was greatly enjoyed by all present. In concluding his remarks, Dr. MacGowan paid a compliment to the local institution by referring to the very fine school atmosphere which seemed to prevail here. Dr. Davidson, superintendent of the Pittsburgh schools, when he addressed the graduating class of a few years ago, also delivered a similar comment. That both of these distinguished gentlemen should observe

IMPERSONATED OFFICER AND IS ARRESTED

Harry Craig, a giant Negro, was arrested at the Hunter carnival, in Wireton last night, while impersonating an officer of the law. Craig, who measures 6 feet and 6 inches in height, represented himself as a deputy sheriff, and was visiting the concessions, whom he threatened to arrest. The township constable being informed of what was going on, placed Craig under arrest and took him to Monessen, where he posted \$25 as a forfeit for his appearance this morning. Craig, however, failed to show up.

HEAVY BOND IS ORDERED FORFEITED

The largest bond forfeiture in the history of Fayette county criminal courts was ordered Tuesday morning in the case of George Burford, of Uniontown, who is under bail for his appearance in Uniontown, to answer charges growing out of an attack by himself and Lawrence Fallon on Nellie Frankenberg and Lillian Katz, Uniontown high school girls. The amount specified in the bond was \$7,500. It was signed by Burford's father and by his mother-in-law. Burford is believed to have gone to England, where he is said to have relatives.

The court had ordered that the defendant be produced within three weeks or the bond forfeited. The time had expired when the court made the order for forfeiture.

The same thing is a matter which was pleasing to local school authorities. Dr. F. C. Stahlman, as president of the Board of Education, presented the diplomas. Prof. C. C. Lively announced the winner of the R. P. I. gold medal given for the highest standing in the four years' course in mathematics and science, and which is donated yearly by the Pittsburgh Alumni of the Rensselaer Polytechnic Institute of Troy, N. Y., to Howard Bradley, as the one who achieved this distinction among the graduates of this year. This was the first time that this honor had fallen to the lot of a mid-year graduate. Edward Aubrey Daniel, president of the Class of '21, presented a beautiful picture, "Pilgrims Going to Church," and dedicated to the memory of the late Miss Ida M. Hugg, as the gift of his classmates. The Misses Olive McKay and Virginia Mountser were heard in piano solos, both of which were splendidly played, reflecting credit on their well received efforts. Herbert Lichter played Kreisler's adaptation of Dvorak's "Indian Lament," as a violin solo, which was much enjoyed. Rev. John R. Burson delivered the invocation, while the benediction was pronounced by the Rev. D. Gomer Griffiths. The high school orchestra played Aletter's overture, "Queen of the Nile," and Panella's "American Red Cross March," in its usually effective manner. Prof. I. T. Daniel directed.

SERIOUS CONDITION PREVAILS AT MARIANNA

A rather serious situation has developed at Marianna where the mines have been idle for the past six months, with but little prospects of a resumption. Conditions became such that Sheriff Alexander B. Gray and Chief Deputy Guy R. Day were called there yesterday.

All day Thursday and last night the town was without a supply of water, the power plant and the pump being closed down when the men who had been operating them left their posts and no others were available.

There has been no violence of any kind and none is anticipated. On Wednesday there was a slight demonstration when the company store, at which the miners secured most of their supplies, closed down, it being reported the company had said it could extend no further credit to its workmen. Some women in the crowd that gathered became angered and threw a few stones, but they were soon quitted.

Conditions are reported to be such that some of the miners and members of their families are begging from farmers in the adjoining community.

Shutting down the pumps and power plant means that unless they are soon placed in operation much damage will be done to the miners by water flooding the entries, and gas collecting in the headings in highly dangerous quantities.

All the houses occupied by the miners are supplied with water from Ten Mile creek, which is filtered and then pumped to them. Sanitary conditions as a result are becoming bad.

Conditions were rendered acute at Marianna, it is said, because the men operating the pumps had their wages reduced by the company, as a consequence of which they left their posts.

Appeal For Flowers

As Charleroi proposes to celebrate Memorial Day this year in a more elaborate manner than ever before in its history, it is necessary that our citizens be generous with their contribution of flowers, in order that the graves of those who died in service or of soldiers who have since been called to sleep with the silent majority may be properly and appropriately remembered. Those who will assist in this feature of the Memorial Day exercises are requested to leave contributions at the home of Miss Minnie B. Richardson, 401 Lincoln avenue, on Saturday next.

You will want your porch to look as nice as your parlor. Let us call and get those porch runners and clean them. They will then look like new ones. All work will prove satisfactory. Electric Carpet Cleaning Company, Raymond L. Yenny, Manager, 719 Fallowfield avenue. Local Phone 285 30112.

UPHOLD CONVICTION UNDER BROOKS LAW

The Supreme Court of Pennsylvania on Thursday ruled that the Brooks license law, the Pennsylvania plan of regulating the dispensing of liquors, is not inconsistent with or antagonistic to the recently ordained federal law, in affirming the conviction of Tony Vigliotti and seven other Fayette countians in the courts of that county, whose judgment was also upheld by the Superior Court.

The opinion, which is the last word of the State's highest court in regard to prohibition, was handed down just before the Court ended its May sitting in Harrisburg. The court ruled on the question whether the eighteenth amendment and the Volstead act annul the state law under which defendants were indicted for selling liquor without license.

The court holds that the police power of Pennsylvania remains unimpaired, so far as the right to protect its citizens, in its own way, from the evil effects of intoxicating liquor is concerned, except that since the adoption of the eighteenth amendment no statute may permit the sale, use or possession of liquors of a kind or in a manner prohibited by the Federal laws.

CUTTER STOCK COMPANY AT THE RIALTO

The story of "The Little Shepherd of Bargain Row" is based upon facts which came under the observance of the author in his early days when he was a jewelry salesman, and the characters are faithfully produced as the author knew them in real life. This is the offering for the opening of the stock season at the Rialto Theatre, Monessen on Monday evening May 30th, when the Cutter Stock Company opens an indefinite summer stock run. The management of the Cutter Stock strives to maintain a clean cut, snappy organization and so far has been successful as the company is now upon its 235th week playing the larger cities of the east without a law off. 30111-p

Mary Hough Lowstutter
Mary Elizabeth Hough Lowstutter age 20 years, wife of Lawrence Lowstutter, of Fourth Street, North Charleroi, died yesterday at 4:15 p. m. after an illness of one week. She is survived by her husband, father, William Hough of Fayette City and one sister. Funeral services in charge of Rev. Rudolph of Fayette City, will be held Saturday afternoon at 4:00 o'clock, new time, from the Lowstutter home in Lock No. 4. Interment in Red Stone Cemetery.

Frances Willard class will meet at the home of Mrs. R. Chessure of Lock No. 4 Friday evening May 27. Mrs. Sam Chessure and Mrs. Parks as hostesses. Please come prepared to sew. 300-t1.

WHITE WAY LIGHTING MAY BE A REALITY IN CHARLEROI

BEALLSVILLE TO HAVE A MASONIC TEMPLE

A petition has been filed for the incorporation of the "Masonic Temple Association of Beallsville," to be located at Beallsville. The purpose of the organization is to erect and maintain a building containing a hall for public and private purposes, lodge room, store rooms, offices, etc. The directors of the organization are J. V. McDonough, M. F. Manning, William A. Hampson, William R. Robinson, and Jesse P. Miller. The officers are, Jesse P. Miller, president; M. F. Manning, secretary and J. V. McDonough, treasurer.

HEAVILY FINED; MUST PAY DAMAGES

John Collins, a boy aged about 19 years of age, who lives at 425 Oakland avenue, was arrested by Constable Corey on Thursday and taken before Justice of the Peace Paul R. Nutt, to answer for throwing a stone through the windshield of the Kirk & Clark truck on the night of the 18th of May. After hearing the evidence the Justice fined him \$25.00 and costs, amounting to \$32.50.

It will be remembered that Jack Clark was in charge of the truck at the time, and was driving toward Oakland park, when he passed a wagon, in which three boys were riding. Just as they were passing the wagon a stone crashed through the windshield, striking him in the mouth, and giving him a severe injury. Miss Edith Riley, who was riding in the front seat, was also slightly injured. After Clark had been cared for by his companions, they started after the wagon and secured information which resulted in Collins' arrest. The defendant claimed it was accidental.

CASH BAIL POSTED FOR ONE PRISONER

Jas. F. McCarty, arrested by the local police Wednesday afternoon, in connection with the attempt to solicit money from the First National Bank, was released Thursday evening on a cash bond furnished by a Pittsburgh hotel keeper named McLuckie. Vaughn, the other man concerned in the affair, had not been released this morning, although it is said arrangements were being made toward that end.

The Sewing Circle of the Washington Avenue church will hold a take sale Saturday afternoon in the grocery store of E. E. Dorezbacher, Fallowfield avenue. 301-t1-p

P. H. C. will hold a pie social and dance tomorrow evening, May 27, in Class City Hall. 300-t2.

Born—To Mr. and Mrs. Harry L. Wentzel, of Vesta, May 26th—a son, Harry L. Jr.

Mrs. G. W. Corey and daughter Mary are Pittsburgh visitors today.

Committee to Circulate a Petition asking Support For the System

HOPE FOR A READY RESPONSE

The White Way Lighting Committee of which W. H. Milliken is chairman, decided at a recent meeting to circulate a petition among the people on the streets concerned. The committee has carefully gone over the cost necessary to erect the standards and to maintain them, and while it is not incorporated in the petition, it is the hope of the committee that Council will take over the White Way Lighting after a period of five years.

It is noticeable that better lighting is already being installed in Charleroi in places of business, and this is probably due to the constant agitation on the part of the Chamber of Commerce. The White Way Lighting will offer an opportunity to take care of the system in a much larger and better way. In other cities, even from the standpoint of advertising, it has been found that the White Way Lighting is a paying proposition. Those who keep their places of business well lighted, both within and without, other things being equal, sell a larger amount of goods than those who do not give adequate attention to this matter.

The following petition which is self-explanatory will be circulated by members of the committee within the next week. It is hoped that the public will respond promptly so as to conserve the committee's time:

"We, the undersigned property owners or merchants renting property, and our successors and assigns, do hereby agree to support the White Way Lighting System for the business district on McKean and Fallowfield avenues between Third and Seventh Streets, also Fifth Street from McKean to Lincoln Avenue, by pledging the sum of 23 cents per foot, per month for frontage on the above mentioned streets for a period of one year from date of installation. This sum includes all expense covered by installation, maintenance, and price of current for first year. After the first year, it will be asked of the signers below to pay their pro rata share of the price of current and maintenance which will approximate 12 cents per foot per month.

There will be ten standards in each block and each standard will contain a single light."

GIRLS OF WHOM TO BEWARE

Japanese "Widowed Physician" Hands Out Some Words of Caution to Susceptible Male Sex.

In "What to Tell Our Grown-Up Sons About Women," a pamphlet which calls itself "The Widowed Physician," has made a list of the things to be wary of. It admits that the girls with "faded" or "characteristic" but disarming smiles are the most dangerous. It says that "the new youth loves to be flattered by the eyes of the old."

Widowed Physician says that the girls in a few brief sentences as follows, the Japan "Widowed Physician" says:

Beware of the girl who makes the first move to the love of a man. I do not mean to say that she is a bad girl, but she is a girl who is likely to be a disappointment.

Beware of the girl who is too easily moved and flattered. She does not mean to be dangerous, but the fact that she is so easily moved indicates that she possesses an unbalanced temperament.

Beware of the girl who slides up to you, or lays hands on you, or comes so close to you as to lead you readily to lay hands on her.

Especially beware of "married women" of reputed respectability, when you have formerly had every reason to believe in and respect, when these same women, by acts obvious or guarded, show you that they would not object to your being more intimate with them than you know in your own conscience you ought to be.

Beware of the mothers who are anxious as to the future of their daughters.

Beware of the girl who drinks wine freely; she will make a poor wife and a worse mother.

Beware of the girl who dresses in a slovenly, artistic manner.

The "Widowed Physician" recommends two types—the tomboy and the "pert, modern, self-sufficient, learned young woman." He adds: "She would sharpen your wits every time."

Turn and Turn About.

Prof. Nicholas Roerich, the Russian painter who refused the post of minister of fine arts in the Lenin government and who is now in the United States, tells an amusing story of the initiation of the soviet system in the imperial opera. The entire staff of the opera house in Moscow, directors, scene painters, singers, were instructed that thereafter all were to be treated on an equal basis, no one being considered better than another, and all to receive the same wage. It may be imagined that the temperamental stars did not receive this without emotion. On the night of the next performance the tenor in the leading role could not be found and a frantic search was made while the audience waited. Finally he was discovered by an amazed manager selling programs in the lobby.

"What madness, is this?" shouted the manager. "Don't you know we are holding the curtain for you?"

"Ah," answered the singer with ironic sweetness, "you see we are all equal now. Tonight I sell the programs. Let one of the ushers sing my role."

The New Santa Barbara Light.

Many persons are still fond of the oil lamp to read by at home. In the house it still gives the amount of brilliancy desired. But lighting engineers claim superiority for the electric light in a fog.

An electric light of 1,000,000 candle-power is to be installed in the Santa Barbara lighthouse. The light itself is not 1,000,000 candle-power, but the light is intensified by the use of reflectors incandescently cut and placed. In clear weather the light will not be visible any further than the old oil lamp, which shines 20 miles. The light is 178 feet above sea level and 20 miles is the horizon limit. But in foggy weather the new light will be visible two or three miles in place of one mile, the limit of the old lamp's beams.

A man who was acting queerly about the rooms of the local library last week excited much comment. He was in search of some book of reference but refused to accept the aid of the librarian in his search. After he had made a second or third visit and gone it was learned he was a member of a debating society and had been chosen to uphold the affirmative on the question: "Would you and would you order the conscription of a soldier who saved the lives of the members of his company by shooting the company cook?"—Pittsville (Pa.) Journal.

Artificial Limbs of Metal.

At St. Thomas' hospital, London, Dr. Fred M. Corner, one of the most famous surgeons in England, has been conducting experiments with light metal artificial limbs on soldiers who had lost limbs during the war and whose recovery had been slow. These show that about 90 per cent of thigh amputations can advantageously be fitted with light artificial limbs, with which the men are able to walk with less fatigue and more satisfaction.

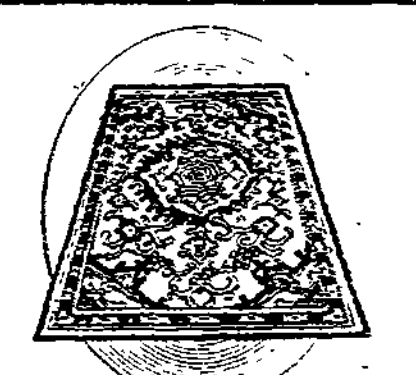

A MEMORIAL SALE

An event that those who participate in—will not forget for a long time. A real "Cheer-Up" Sale to arouse the majority of people, who seem to see nothing but Hard Times ahead.

We have painters and carpenters working on our store and warehouse buildings for sometime. Why, now, in hard times? Because they needed attention—and because it gives men work. If every firm in this town would show this spirit, people would forget about "Hard Times."

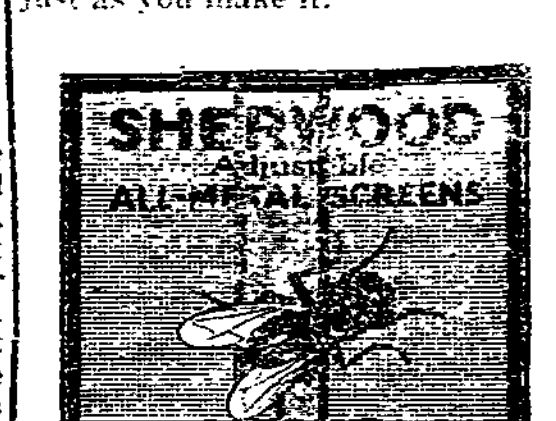

Hot weather will soon prevail. Make your own ice cream. Get one of these 2-quart Jewel Ice Cream Freezers, while they last. \$1.25

At housecleaning time most people find they need some new floor coverings, and at this time do not want to pay very much for them. We are showing a lot of 9 x 12 Mitered Print Brussels Rugs that we bought to sell at \$24.50, as a special, but we are going to forget the cost price and sell them this sale only at \$15.75.

Our new manager who is an expert on Rugs wants the people of Charleroi to know that the store is now showing a stock of strictly up-to-date patterns in all grades and prices of Rugs, that you will find it hard to duplicate in most of Pittsburgh's stores.

Glance in our show windows—if you want to see what we think of "Hard Times." You can get \$5.00 value for \$1.00 if you need any article advertised therein. Let's all get busy. Business is like life—it's just as you make it.

Sale of steel frame adjustable, heavy mesh wire, size 24x34 (Regular window size) Window Screens that retail at \$1.25 everywhere. While they last at the low price of 85c (None delivered, none charged, supply limited).

Woodward Furniture & Carpet Co

EVERYTHING FOR THE HOME

To Remove Mildew. Make a paste of bleaching powder and water and allow the paste to remain on the fabric for a day or two. Keep the paste damp while it is on the material. Finally wash the fabric and dry in the sun.

Consistent Position. "Have you always been able to maintain a consistent position in politics?" "There is one position," replied Senator Stewart, "that I can guarantee myself on having maintained very consistently, indeed. I have always managed to remain on the upper surface of a landslide."

Enough Against It. Thank heaven it is no disgrace to be poor; poverty has enough discomforts without that one.—Swedish Translation.

Sun's Glow Changes in Shape. The Gegenstand, the mysterious midnight glow in the sky opposite the sun, is not constant in form. Prof. E. E. Farnard finds that in early autumn it appears as a roundish diffused mass of noticeable light, sometimes 40 degrees or 50 degrees or even more in diameter. At no other point in its path is it so large. But in October it becomes smaller and elongated, a change believed to be due to the mingling of its light with that of an auroral band reaching it at this season of the year.

L. E. Flint, City Editor

Entered in the Postoffice at Charleroi,
Pa., as Second Class Matter.

THE POSTAL ZONE LAW

It is widely believed that special interests are responsible for the McDell bill to repeal the postal zone law on second class mail matter. Publishers of monthly and weekly magazines would benefit by a return to the old system, but nobody else would, least of all the Postoffice which has succeeded in paying expenses under the zone system as it never succeeded before, and when a government department pays expenses the people are saved from taxation to that extent. Why should the government be asked to haul tons of a popular New York or Philadelphia magazine to the Pacific coast for the same price as it hauls such a magazine to New Jersey? The zone system rules in the hauling of all other kinds of freight and why not in the hauling of heavy second-class mail matter?

The present plan is dictated by common sense and business principles as well as by equity. The old system of an extremely low average rate virtually amounted to a subsidy paid the periodical publishers and was as indefensible as would have been a direct vote of money out of the Treasury for the benefit of these publishers. To repeal the postal zone law would add millions to the profits of these publishers at the expense of the taxpayers. No private concern will haul freight at a price far below cost, and there is no good reason why the government should do so, then go to work to tax the people to make up the loss. A vastly prosperous periodical such as the Saturday Evening Post, for example, is in no need of an indirect government subsidy, and even if it were it would have no more right to one than the average commercial enterprise.

U. S. BACK ON THE MAP.

Senator Pat Harrison, who lambasted Ambassador George Harvey on the floor of the Senate, recently, had his labor for his pains. It made not the slightest impression on the British people. Col. Harvey's reply to the British addresses of welcome is reported to have made a wonderful impression on Great Britain, and the London Times declares it "embodies the beliefs, the hopes and the desires of us all." As Mr. Average American checks off the appointments to diplomatic posts under the Harding Administration and compares them with those of the previous administration, there is a pardonable tendency for him to stick out his chest and exclaim: "No more surrender! My country is back on the map!"

SAWING WOOD.

Secretary Mellen is the member of the cabinet against whom most of the Democratic criticism was aimed at the time of his appointment and he now seems to be getting more commendation than almost any other member of the President's official family. Apparently the less you please the Democratic press, the better pleased is the country.

A Louisville girl declares she prefers matrimony to a vocal career. But what's the difference asks some one.

The Columbia professor who decides that an electron is one hundred thousandth part of an atom in size also surmises that an electron "may have a complex system of its own." The man who can measure an electron ought also to be able to count its minute particles.

Inlanders who suppose that Great New York is interested chiefly in increasing crops of cabarets will be surprised to hear that it counts 790 farms and that the Borough of Queens alone last year produced a thousand tons of hay and half a million bushels of potatoes.

Girls of twelve years in the Bedford, N. Y., reformatory are asked, among other test questions, "what is the difference between a President and a King." Perhaps few of them answered briefly and truly that a President is a real power while a modern King is only an ornament.

The incongruities of nature are well illustrated when a man whose life from the cradle to the grave has been one stupendous error points out a small mistake in a newspaper and asks the editor why he can't get things straight.

A new California law seems to fix the "age of responsibility" at 18 by providing that persons under that age shall not suffer capital punishment.

ALTAR USED BY COLUMBUS

Relic Intimately Associated With
Great Discoverer Has Recently
Been Brought to America.

Angel Curras of Coruna, Spain, an artist, has brought to Brooklyn the original small altar presented to Christopher Columbus by Queen Isabella and used by Columbus on his first voyage of discovery on the flagship Santa Maria. The antique was obtained by Curras after several years of endeavor, and is to be delivered to Peruas, Colorado & Co., an exporting firm. The authenticity of this altar and a number of other antiques which Curras brought is certified to by affidavits made before Ralph C. Besser, American consul at Coruna. The altar was originally a gift from Queen Isabella to Christopher Columbus, according to the account given by Mr. Curras, and, besides eight carvings in bone depicting scenes in the life of Christ, contains also small portraits in carved bone of King Ferdinand and Queen Isabella. The small shrine is about sixteen inches high and fourteen inches wide, and the hinged cover, in two pieces, folds over the top, making a compact cabinet.

Each of the doors has a hanging iron knob used to unfold the shrine. According to the documents in Mr. Curras' possession, this shrine is one of a collection of twenty antiques he is bringing to this country. On inspection by customs officials, the shrine was ordered sent to the appraisers' stores, that a valuation might be put on it.

Muzzled.

Speaking of garters, have you heard of the Harvard students who spied a pair with silver clasps in a Harvard Square shop window, and, thinking to raise a smile at least, from the charmer at the counter, asked the price of a dog-collar, pointing at the same time to the silver-clasped garter? Shattered, looked sooty at the young men, and said: "Do not separate them for purposes of sale."—Boston Herald.

REACH SETTLEMENT IN DAMAGE CASE

In the suit of Mrs. Anna McCallum
against the Pittsburgh Railways com-
pany, a claim for damages for the
death of her husband, a son and
daughter, killed in a crossing acci-
dent near Allenport in August, 1919,
and which was on trial in the Wash-
ington county court, a settlement was
reached Thursday afternoon. Mrs.
McCallum was given damages total-
ing \$4,200. She was given \$3,500 as
a result of the death of her husband
and \$200 damages in each of the
deaths of her son Roy and daughter
Bessie. For injuries received by the
daughter Ethel, a minor, and the
fourth member of the car the day of
the fatal accident, damages were
given in the sum of \$200.

The case was a very close one as to
the liability of the railways com-
pany. It was shown that the approach
of a car from the direction in which
the car was coming that day that hit
the McCallum auto could be seen for
at least 400 or 500 feet, notwithstand-
ing which Mr. McCallum drove di-
rectly in front of the car. A motion
was made for a non-suit by de-
fendant's counsel, but the court de-
ferred ruling on the question of law
until later. The defense opened and
had just gotten under way when a
settlement was effected.

STIFF FINES FOR VIOLATING DOG LAW

Keeping a dog contrary to law is
an expensive proposition in Charleroi,
as was demonstrated on Monday,
when a number of residents of the
borough were haled before local Jus-
tices to answer charges made by
Constable Corey.

Before Justice Whitehead, Nick
Caupucha, of 1221 Cres. avenue, was
fined \$25 and costs for keeping a dog
he being an unnaturalized citizen and
Chas. Palvas, of 728 Washington
avenue, was fined \$5 and costs for
keeping a dog without a license.

Before Justice Nutt, James Vol-
ente, of 201 Woodlawn avenue was
fined \$5 and costs for keeping a
dog without a license, while Joe
Patch of 1007 Second street and Joe
Heidel, of 943 Meadow avenue, were
each fine \$25 and costs for keep-
ing dogs, both being unnaturalized
citizens.

Notice, Boy Scouts
The Boy Scouts of Charleroi will
report at the borough building Mon-
day morning at 9 o'clock, fast time,
to take part in the Memorial Day
parade and exercises. By order of the
Scoutmaster.

Mrs. Richard Burke and daughter
Ruby visited the former's son, Ray
Burke, who is in the Marine hospital
near Brooklyn where he underwent
an operation.

A "watch tower" opposite the Cap-
itol is to be maintained by the Wo-
man's party to "keep Congress un-
der perpetual observation." Doubt-
less Congress thinks the real object
is to keep the Woman's party in the
limelight.

The New York Freeman (whose
owner's name is Heubusch) does not
expect the Germans to pay "any more
indemnity than they themselves
decide is fair and proper," but it looks
as if the Germans themselves have
reluctantly decided that their unus-
ual scheme of fixing the indemnity
they themselves must pay has been
worked for all it is worth.

GAVE "SHOW" UNDER GUARD

Peculiar Experience of American Musical Comedy Company in the City of Vladivostok.

A belated story of how an American musical comedy company which had volunteered to give an entertainment for the troops at Vladivostok was caught in that city while the "reds" held sway, has been received by the Knights of Columbus from Garry McGarry, who is in charge of the welfare activities of the order in Siberia. The troupe was in charge of W. R. Bandvard and had come from China to the Russian seaport, where they were held up for several weeks awaiting a steamer.

During their stay, every one went around with a revolver, and the city took on the appearance of a western "boom" town in pioneer days. During the period the bolshevists killed about 22 persons, and many of the actors had narrow escapes. Several of the women actresses had to be taken to and from the theater guarded by a squad of allied soldiers, and at the hotel where they stayed a guard was constantly posted. However, the American troupe "carried on" for the doughboys amid all the panoply of war and revolution. There were armed soldiers inside the theater, outside, behind the scenes, and in the box office. All the audience brought their rifles with them or carried side arms and band grenades.—Chicago Post.

Asbes—Make Good Fertilizers.

The technical authorities for the restoration of France and Belgium announce that they have discovered that furnace ashes from glass, iron and steel works stimulate vegetable growth enormously through carbonic acid fertilization. All plant life is said to be spurred to natural growth. These ashes may be applied to restoration of the devastated districts.

An A.I. Nations Case.

John Pappas, a Greek, has been arrested on a charge of grand larceny. Haidi Heide, a Turk, makes the accusation. Heide had some Russian money how much he doesn't know. He exchanged it for 100 English sovereigns. An Italian friend introduced him to Pappas, the Greek. A trip through the botanical gardens was undertaken. During the walk a man who looked like a Swede and who talked like a Swede appeared and assumed the role of hold-up man. Pappas didn't help, said the Turk Detective Hagerty, an Irishman, arrested the Greek. The preliminary hearing was held next morning before a magistrate who was born in Wales.—New York Times.

Cuba Starts War on Rats.

The Cuban sanitation authorities have undertaken a vigorous campaign against the rat pest to prevent the bubonic plague from entering Cuba. Thousands of traps have been set and every precaution is being taken. Ships coming from ports under suspicion will not be permitted to unload at the wharves, but must discharge their cargoes by means of lighters or launches while anchored in the harbor, thereby lessening the possibility of plague-carrying rats reaching shore.

Nettles That Cause Death.

All species of nettles are unpleasant enough to handle roughly, but some of the foreign ones are most formidable plants. Several of the East Indian forms are truly dangerous, for, after the first itching sensation has passed away, it is often followed by a feeling as if hot irons were being rubbed on the flesh, and the pain increases to such an extent that after hours—and sometimes days—the patient is seized with symptoms like those following influenza and lockjaw, while sometimes death results.

Mathematical Prodigy.

Some years ago the London Lancet cited a remarkable case in which extraordinary ability in arithmetical calculation was associated with general mental inferiority, if not actual insanity. The patient was completely blind and was able to make elaborate calculations such as a square root of any number running into four figures in an average of four seconds and the cube root of any number running into six figures in six seconds; thus he gave the cube root of 405 484 375, which was 775, in 13 seconds. These are mere trifles, however, compared with the following: He was asked how many grains of corn there would be in any one of 64 boxes, with one in the first, two in the second, four in the third, eight in the fourth and so on in succession. He gave the answers for the 14th (\$192), for the 18th (\$31,072), and the 24th (\$8,383,608) instantaneously, and he gave the figures for the 48th box (140,737,483,355,328) in six seconds.

Breeding Wild Ducks.

Breeding and preserving of true game birds, grouse, partridge and pheasants, is an old and well established industry in England and on the continent of Europe. Breeding wild ducks for sport and profit is quite modern. A few years ago it was believed that wild ducks would fly away, says the American Forestry association. But since we have learned that when properly looked after these birds are more easily kept at home than any other species of game, nearly every country place and game preserve in England has an abundance, and already there are thousands of wild duck breeders in America.

Depth of the Sea.

An interesting problem is presented by the depth of the sea. If the surface were lowered 6,000 feet (1,000 fathoms) the width of the Atlantic and Pacific opposite the United States and South America would not be materially lessened, but a continent larger than Africa would appear about the South Pole, while North America would be connected with the British Isles and Europe through Greenland and Iceland, and with Asia in the region of Behring strait by broad plains enclosing a landlocked Arctic ocean about as large as the Mediterranean sea.

Royal Railroad Engineer.

There is no cleverer locomotive engineer in Spain than the duke of Saragossa, a wealthy member of the nobility, who is closely related to the royal family. Since the unrest in Spain has become so accentuated, each time King Alfonso journeys by train the locomotive is conducted by the duke.

SEEMINGLY 'T'WAS EVER THUS

Example of Eternal Triangle Will Soon Be Presented to Another Judge and Jury.

Not so very long ago there lived together in Indianapolis a certain man and woman. They were well past middle age and their children were reared and gone. One evening the man of the family seriously marked the passing of time. Sad suspicion gripped the heart of the woman. The husband explained that he would have to be away from home that evening—on business. The wife explained that she did not wish to stay at home alone, and would go to a neighbor's home. She left the house first. But she did not go to the neighbor's home. Instead she slipped into the rear seat of the curmudgeoned darkness of her husband's automobile and covered herself with a robe. After a while he came out of the house and drove away. He drove to another house in the city and died up in front. He left the car and entered the house. The wife also left the car and took a position in the shadows nearby. After a few minutes wait the man came out of the house with another woman on his arm. The eternal triangle was completed, and the same old thing happened. Now they are setting ready to tell it to the judge.

Had Historic Foundation.

"Babes in the Wood" is founded on a crime committed in the fifteenth century, the full history of which may be seen carved on the mantel-shelf in an ancient house in Norfolk, England.

Fortunate Man.

Lucky is he who has been educated to bear his fate, whatever it be, by an early example of uprightness and a childish training in honor.—Thackeray.

A Solvent.

"Liquor always loosened up our notions," said a waiter reminiscently. Meaning, we suppose, that it released the "tip" from the tipplers.—Boston Transcript.

Shakespeare and Nature.

Shakespeare was naturally learned; he needed not the spectacles of the books to read nature; he looked inward and found her there.—Dryden.

Crackless Porcelain.

Porcelain cracks because the glaze with which it is coated expands at a different rate from the clay of which it is composed. A manufacturer in Europe is now making a glaze that has the same coefficient of expansion as porcelain.

EVE WAS JEALOUS

Kabyles' Version of Tragedy in the Garden of Eden.

Serpent Said to Have Used Mirror to Induce Woman to Partake of Forbidden Fruit.

The Kabyles of northern Africa are an independent people—as mountain tribes are apt to be. They are not nomads, and are far superior in honesty and integrity to the Arabs of Algeria.

Kabyle women go unveiled and enjoy considerable freedom. The people as a whole are said to be descended from north European races, perhaps remotely the same from which came the ancestors of our own "Irish" Fathers. They are white, fresh-skinned folk, often blonde.

At one time they were Christians. Now, although they are nominally Mohammedans, they still retain many Christian customs, and their legends abound in curious distortions of Bible tales.

They have a peculiar version as to how Eve came to eat the apple. The serpent asked Eve if she knew the real reason why the fruit of the apple tree had been forbidden her, he was all curiosity at once. "Because," explained the serpent, "the apples are wanted for Adam's second life."

Eve was sure he was lying—for was or she the only woman in the world? No," said the serpent, "you are not. Come to the corner of the garden tomorrow and I will show you another woman." The next day she came to be placed appointed.

The serpent held up the world's first mirror and Eve looked through the bushes into the mirror and saw what she supposed was another woman. In a fit of jealousy Eve went and ate the apple.

Such warped versions of the Bible are slowly being corrected nowadays by all too few Christian missionaries. The athletic, cliff-climbing preacher as told the story so constantly that it has been called the "Lord Jesus man"—or "Lord Jesus" for short.

In a certain village he has a special Kabyle friend called Moses. So when he visits this particular village, everyone calls to him, "Hello, Lord Jesus, are you going to the house of Moses?"

He is a good tooth puller and a fair physician and combines these with his preaching.

Although a learned man, he makes himself a friend of the people and will help a man catch an errant goat, or sit down with a family in a cobbler's hut and eat with them a meal of cous-cous, acorns and thrushes' brains as easily as he will lecture before a learned society on the ethnology of the Berbers.—Willard Price, in the Christian Herald.

First Phonograph Disk.

The first phonographic disk is still in existence, in the Smithsonian Institution at Washington. It was made in 1887, by Emil Berliner, and the first song sung on a phonograph disk was "The Sweetest Story Ever Told."

The original disk that Berliner experimented with is of glass. A coat of soot was rubbed over the surface. The revolution of the machine caused the needle to scratch the sound into the glass, and thus make lines. Thus the voice of a person singing into the horn was recorded. From it a zinc disk was then made, and a copper matrix was the next step. From the matrix all records were cast. Thirty-four years ago all finished records were of rubber. Today the finished record is made of various chemical compositions, with a good proportion of rubber.

There were five steps in casting the first disks, whereas today only three steps are necessary. First, there is the wax disk, which records the voice. Then the matrix is cast, and finally the complete record.

Milk goat experiments in grading up from native and grade Toggenburg and Saanen does with purebred Swiss bucks, begun in 1911, were continued last year by the United States Department of Agriculture, at the government experimental farm at Beltsville, Md. The flock comprises 20 does and eight kids of one-half, three-fourths, seven-eighths and fifteen-sixteenths blood. The average daily milk yield per doe in 1919 was 3.92 pounds, an increase of 2.42 pounds over the yield of the ten selected native does which formed the foundation stock of the herd. The highest milk yield for an individual doe in one day is 9.0 pounds. For 1919 the flock showed an average of 3.7 per cent butterfat.

Never Waste.

Caution against wastefulness as practiced by many persons is apt to show itself regardless of time or place. Pedestrians attempting to round one of the busiest downtown street corners in Indianapolis recently found their path blocked by a little shawl-clad woman whose very dress and manner bespoke thrift. She was picking up a pin.

Cruise's Island to Be Park.

The island of Juan Fernandez, situated off the coast of Chile and popularly supposed to be Robinson Crusoe's island, is to be converted into a national park and tourist resort by the Chilean government.

RECALLS OLD SIX-DAY RACES

Death of "Lepper" Hughes Brings Back Period of Sports That Once Held Full Sway.

The death a few days ago of "Lepper" Hughes, one of the old guards of the six-day horse-racing game which was conducted annually in the old Madison Square garden, recalls a period when that portion of the metropolitan public which likes to go to bed before daylight pursued one of its fads to the limit, remarks the New York Herald.

These six-day grinds drew great crowds. Many persons virtually lived the entire week in the foul atmosphere of the dingy old building and watched the men as they walked or trotted their way wearily round and round the arena. Prize money was big and the contests had an international flavor, the English champion, Charlie Rowell, being a participant on more than one occasion, and the winner of one competition important from a prize money viewpoint.

"Lepper" Hughes and Paddy Fitzgerald of Long Island City were invariably on hand when these so-called endurance tests were decided, and each had a devoted following. Both were tall and slim in build, while Rowell was stocky, and had a short, quick stride which rolled the miles behind him in a way which made it difficult for his competitors to keep near him. Hughes has long been famous for the quality of his distance runners, and Rowell was one of her very best.

The death of Hughes will also recall to many the New York of the days when there was not much life after dark north of Twenty-third street and the downtown visitor eager to see the sights had to content himself with what the Bowery and Sixth avenue afforded.

FURS NO MARK OF RICHES

Even the Best Farmers of Romania Wear Coats and Hats of Finest Astrakhan.

The poorest farmer in the Near East can afford astrakhan coats and hats; and the man without a good piece of fur on his overcoat collar or a whole astrakhan hat is almost always a beggar or a forlorn wanderer from America or western Europe, where these things cost money.

Nobody wears more fur lining or richer astrakhan hats than the cab drivers.

These men comport themselves with a dignity equaled by no single other class of men in the world, unless it be by the priests of the Greek church.

A long black plush garment, tight at the collar and belted at the waist by a black robe cord, envelops them from head to foot. Because it is dark with fur, this garment makes a man look far bigger than he really is. And the light conical astrakhan cap, like a curly dunce cap, adds to his majesty.

Many of the drivers are said to be long to a curious religious sect originating in Russia, a sect involving celibacy. They spurn friendship with women as likely to decrease their love for their horses.

Whether this is true or not, it is certain that the cab drivers are the most picturesque figures in Bucharest, outshining even the cosseted and rouged Roumanian army officers.

Long Pigeon Flight.

One of the longest pigeon flights on record will be attempted from Edmonton, Alberta, to San Antonio, Tex. Arrangements for the flight have been made between the Edmonton Homing Club and the San Antonio Homing Club. The distance is 2,000 miles.

Between 40 and 50 homing pigeons will be shipped from San Antonio and liberated there by W. Lees, president of the Edmonton Homing Club.

The longest flight on record, according to information, was from Rome to Liverpool, a distance of more than a thousand miles, over difficult country.—Brooklyn Eagle.

Contrary to past practice, composition road surfaces are being put down by the French highway authorities in the Rhone valley. At Givors a test is being made of two miles of an Italian composition. This has a cement basis and is guaranteed for 15 years. The road authorities have expressed their willingness to experiment with competitive types of road material. Of 33,000 miles of roads that required repairs at the time of the armistice, 13,620 miles have been greatly improved, and 2,200 miles have been completely repaired.—Compressed Air Magazine.

Paris War Library.

Over 100,000 volumes and almost as many pamphlets, etc., have been collected by the French government, and a building will be erected having five miles of shelving. The future historian will probably die in the first mile. The collection of manuscripts, photographs and war records is appalling as to numbers, and there seems to be no limit to the gifts of collectors. In this country Princeton University and the University of California are especially strong on war material.—Scientific American.

Decorum.

"When you mention that you saw a lady of your acquaintance on the street, does your wife ask you to describe what she wore?" "Certainly not," replied Mr. Meekton. "These days it wouldn't be considered a proper question."

"Tell 'em nothing, eh? What about that advice in managing wives?" "It won't work. What you fail to tell 'em, they guess."—Louisville Courier-Journal.

Lamp on Oil Can.
An inventor has patented an electric lamp on the spout and a battery on the handle of an oil can for engineers.

Derivation of Custard.
Custard was a corruption of a middle-English word meaning a pie or tart and was allied to the modern French word *crustade* of the same meaning. All these words came from the Latin *crusta*, meaning a crust.

Film actresses work hard. They may not have late nights, but they have early mornings and they are often up, while other folks are turning over in bed for another nap. "What do you do in your leisure?" a cinema actress was asked. "Nothing," she replied. "How sensible," was the rejoinder. "It isn't sense, it's necessity. I never do anything in my leisure, because I never have any leisure to do it in."

This Gift Is Welcome.
If you desire to remember with a present some friend or former chum living at a distance, purchase a box of stationery, give a sheet to your one-time mutual friends and ask them each to write a favorite recipe on it. Then collect these sheets, make them into a neat book and send it. It will be appreciated because it is personal.

Doubly False.
Headline—"False Teeth Betray Alleged Murderer." Might have known he couldn't trust 'em.—Boston Transcript.

This Isn't a Lost Art.
The art of conversation as it is now generally practiced: Talking much and saying little.

Camel's Hump a Delicacy.
Like veal in color, and beef in taste, the camel's hump is a favorite delicacy among the Arabs.

Closes Airtight—So Of Course It Saves Ice

NOW we believe we have a real refrigerator that satisfies both the taste and pocket book of our trade. Not only is the Airtite exceptionally efficient and economical, but as beautifully finished as a fine piece of furniture.

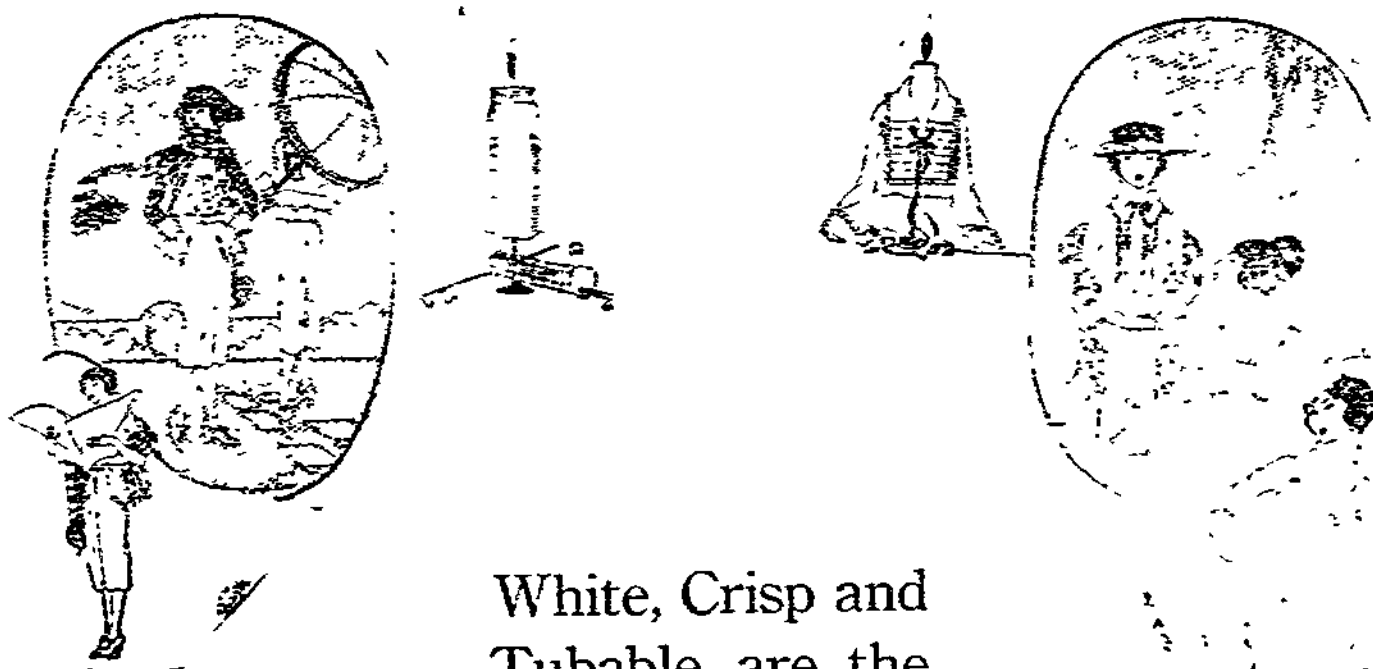

Absolutely airtight! Not a crack or seam to let cold air out and warm air in. Think what this means in food and ice saving.

Glistening, snow-white, one-piece seamed lining. Sanitary—easily kept clean.

Come in and let us show you.

Prices range from \$13.50 and Up.

Our HERALD SQ. Model

Herald Square, New York

Some of New York's largest department stores are located in this section and it is, consequently, the scene of a daily throng of stylishly dressed men and women. The stylish Victor model opposite is accordingly, quite appropriately named for this fashionable section.

Our Herald Square Model

is a class one custom double breasted suit with long soft roll notch lapel. The distinctive and smart lines of this snappy make it especially attractive to young men. It illustrates the elegance of the Victor line which embraces every shade of style from conservative to extreme.

VICTOR CLOTHES

Merely "good enough" is not good enough for Victor clothes. We set but ONE standard of quality -- the BEST at the price -- and every Victor garment must meet that test of quality.

The BETTER VALUES in Victor clothes -- the accomplishment of moderate price without sacrifice of quality -- are attained by economies in our manufacturing methods, factory efficiency and direct from factory to consumer distribution.

That is why Victor clothes enjoy the well earned reputation of being the best moderately priced ready-to-wear clothing on the market.

We Identify Victor Clothes With Our Victor Label! Look for it Always

STORE CLOSED MONDAY, MAY 30th, MEMORIAL DAY

The day the country pauses in the hurry of its every day life to pay honor and to reverence the soldiers, living and dead, who have fought to maintain the ideals of the nation from the time it was in its infancy until the present. It is fitting that everyone, as an individual, take into account those ideals, the mighty price of upholding them, and do his bit in their perpetual maintenance.

J. W. Berryman and Son

Charleroi's Busy Store

GRAVES OF MANY SOLDIERS MARKED

In anticipation of the coming Memorial Day, and with the wish to make its observance this year more impressive than ever, County Commissioners J. W. Walker, J. E. Johnston and W. H. Ecker, during the last few months, have endeavored to locate the resting places of Washington county's heroes, and to mark them with appropriate headstones. To this end they have placed orders for the erection of more than 75 stones over the graves of those who gave their lives in their country's services. These stones have practically all been placed in position, but in a few cases inability to obtain material has interfered with the plans to have them all erected in time for Memorial day of 1921.

In the lists of those for whom headstones have thus been supplied and yet to be furnished are veterans of the Civil war, the Spanish-American war and the World war. These stones have been erected in the cemeteries at Washington, Claysville, Monongahela, Canonsburg and Eallsville, and in some of the smaller cemeteries of the county. It is solely through the action of the board of county commissioners that headstones may be erected at the expense of the county, as the acts of assembly authorizing this to be done vests the power of ordering them in the commissioners only.

FIRE-WAR PRICES ON EGGS AND BUTTER

Pre-war prices on eggs and butter prevail in the farming communities in Mercer county, according to reports received by the Mercer county farm bureau. The prices quoted are 18 cents for eggs and 22 cents for butter. The peak prices of the products came in the winter of 1920, when eggs sold for \$1 per dozen and butter 90 cents a pound.

David H. Williams, long a resident of Monongahela, died at the Memorial hospital in that city, this morning at 5:30 o'clock. Mr. Williams was 81 years of age, and was a veteran of the Civil war having served in the 1st (Ruggold) cavalry.

LOCALS WILL PLAY BELLEVERNON TOMORROW

The schedule of the Charleroi baseball team of the Press League calls for games during the next few days as follows:

May 28—Belle Vernon will play at the local park.

May 30—Monessen will be the attraction at the local park in the afternoon, while in the morning the local team will go to Monessen. All of these games are expected to be very interesting, and as Charleroi has been consistently winning, its supporters except the locals to annex a majority of the contests.

BEE-HIVE OVEN SWIFTLY PASSING

The day of the "coke oven barometer" it is pointed out by many in the Fayette county region, is past. Five years ago the blowing out of so many coke ovens would have created a sensation. The banking of ovens has been continued throughout the field until the lowest point in the history of the region has been reached, and this condition makes but little comment. The day of the bee-hive oven is rapidly passing. It is admitted that many ovens which have been blown out in the recent weeks will never again be put into blast. This is due to the increased number of by-product ovens and the increasing demand for by-product coal. With the advent of the by-product ovens the old bee-hive type has passed into the discard as tremendous economic waste.

MONESSEN TEACHER TO WED INDIAN

Marriage license was issued in Pittsburgh on Wednesday to Kirubal Appasamy, a native of India, and a sophomore in the school of engineering, University of Pittsburgh, and Miss Judith Ames, a member of the faculty of the Monessen public schools.

WILL SEND COAL TO BY-PRODUCT OVENS

Plans for the development of the Greene county coal field, scarcely touched as yet, provides, so far as can be ascertained, for no bee-hive coke ovens. The coal will be removed and shipped to by-product ovens. It is understood that large corporations, including the Frick interests, are planning for the installation of huge underground haulage systems whereby the coal for miles for back will be delivered to the river tidples for shipment. This will provide for the opening of large sections of coal in that county without railroad connections other than those along the river.

The underground haulage system is being installed at the Alice mine, opposite Roscoe, which when completed, will transport coal from a number of interior workings of Fayette county, which had heretofore been delivered to bee-hive coke ovens to be made into carbon. The Carnegie Steel company is transporting millions of tons of this coal by river and delivering it to the plant at Clairton. Within a few years the familiar "line of fire" from coke ovens will be but a memory.

OFFICERS EXONERATED FOR BANDIT'S DEATH

Chief of Police Otto Luellen of Washington, and Constable Milton Owens, of the same place, were exonerated by a coroner's jury on Thursday for the death of James Edward McGaughan of Columbus, Ohio, who was fatally wounded in a gun battle which took place on the streets of Washington on May 10. McGaughan died four days later in the City hospital of Washington.

CONNELLSVILLE ADDS TO ITS SCHOOL TAX

The Conneltsville school board has fixed the amount of school tax for the preetsn year at 30 mills, an increase of five mills over last year, and in addition has assessed a personal tax of \$5 on every male and female in the city over 21 years of age.

ROBBERS ARRESTED AFTER MAKING HAUL

Three colored men who gave their names as David Douglas, Axel McCullen and J. H. Malone, were arrested by the police of Monessen on Thursday, charged with the robbery of the Nahi store, on Sixth street of that town, early Thursday morning. The arrest of another colored man was instrumental in the three men being arrested.

The Nahi store was robbed early in the morning, the thieves being seen by a man across the street as they lighted matches while taking silk shirts from the display window. This man came down stairs and fired at the robbers but they got away. Mr. Nahi estimated his loss at \$500, but practically all the goods were recovered when the Monessen police searched the homes of the defendants.

The Germans can at least be thankful that they are no longer taxed to support a great army and navy.

Divorce Notice.
In the Court of Common Pleas of Washington County, Pa. Beulah Morris vs. Charles Morris subpoena sur libel for divorce. No. 237 November Term, 1921.

Notice To Respondent
To Charles Morris, respondent in the above mentioned case: You are hereby notified in pursuance of the Order of Court of Common Pleas of said County of Washington, to be and appear in the said Court on the third Monday of August next, being the 15th day of the month, to answer the petition of libel hereto preferred by the libellant, Beulah Morris your wife and show cause if any you have, why the said Beulah Morris should not be divorced from the bonds of matrimony entered into with you agreeably to the Act of Assembly, in such cases made and provided. Hereof fail not under the penalty of having said petition heard and a decree of divorce granted in your absence.
